

## **Hellian Oilfield Frac Heater Specs**

### **60 MM BTU Skid Mounted Heater**

- Propane or natural gas high efficiency burners
  - 92% efficiency on NG / 90.5% efficiency on LPG
- Custom Coil design allows for high volume slipstream capabilities
  - 10.0+M<sup>3</sup>/Min @ 14C temp rise
  - 7.0 M<sup>3</sup>/min @18.5C temp rise
  - 5.0 M<sup>3</sup>/min @ 26C temp rise
  - 3.0 M<sup>3</sup>/min @ 43C temp rise
- 6" manifold with 8" bypass manifold and globe valve
- Redundant high temp and hi/low volume safety switches eliminating single point failures
- Compact foot print – 8' x 24' skid
- Coil design allows for heating of fresh water, CKL, or flow back fluids
- Reliable, field tested control system
